

# IOEBA Conformation Titles Information

- A. **Requirements for Champion title.** Championship points are awarded in accordance with the Point Schedule.  
To earn a IOEBA Champion title, a dog must:
1. Earn a minimum of 100 championship points,
  2. Earn points under at least two different IOEBA-licensed Judges,
  3. Win one Best Male/Female (or higher) class with competition.
- B. **Competition for the Champion title.** Competition is defined as more than one male/female entered and shown in any one of the regular classes (Puppy, Junior, Senior or Veteran classes).  
If a judge withholds a first-place ribbon and awards a dog a second, third or fourth place ribbon in a class of one, this dog will count as having competed and shall count as competition. If a judge withholds all awards from the dog, then it shall not count as competition. Dogs that are excused or disqualified do not count as competition. A dog that is judged in a class, but whose entry is subsequently determined to be invalid, shall count as competition.
1. **Earning a competition win by going Best Male/Female.** If only one male/female dog is entered in the regular classes, that dog may earn championship points, but such wins do not count as wins with competition. However, if a class winner is selected as Best Male / Female, that counts as a win with competition.
  2. **Earning a competition win by going Best of Breed.** A Best Male/Best Female who has no competition of the same or opposite sex in the regular classes may still earn a win with competition by defeating a Champion or Grand Champion of either sex for Best of Breed.
  3. **Earning a competition win by winning Best in Multi-Breed Show or Best in Show.** At shows where Best in Multi-Breed Show or Best in Show competition is offered, a Best Male/Best Female with no competition in its breed may still earn a win with competition by winning Best in Multi-breed Show or Best in Show.
- C. **Requirements for Grand Champion title.** To earn a IOEBA Grand Champion title, a dog must:
1. Win the Champion class at least three times with competition, and
  2. Win the Champion class under at least two different IOEBA-licensed Judges.
- D. **Competition for the Grand Champion title.** Competition is defined as at least three dogs correctly entered and shown in the Champion class.
